SEYCHELLES

**An original souvenir
of the
Seychelles Islands?**

**Better than a picture!
A 3D colored figurine
made to look just like you!!**

A holiday's souvenir or a souvenir of a special event!

Wedding,
graduation,
pregnancy,
birthday
surprise, ...

Dressed with
your favourite
clothes

Can be produced in several
sizes.

Create your 3D figurine:

- ◇ 3D acquisition: A light scanner is used to take numerous pictures simultaneously (16 frames per second). One to two minutes are required for a human body. Our scanner presents no safety risks for people.

- ◇ 3D modeling: our graphic designer provides image processing, 3D modeling and layering-up of the colored texture faithful to the original model.

- ◇ 3D printing: your figurine is produced on one of the most advanced 3D printers.

Manufacturing process

Who are we?

TFC - International (Pty) Ltd is a company specialized in the implementation of 3D modeling technologies.

We use various highly innovative technologies for our achievements:

- ◇ Autopilot drones for 3D terrain modeling and aerial photo topography.
- ◇ Land mobile mapping (Cameras + GPS technologies) for the 3D modeling of road/railway networks.
- ◇ The Light scanner for 3D modeling of human bodies, industrial parts and art objects.
